-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 April 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to newly added claims 33-52 filed on 4/20/2005 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

2. Claims 34-36, 45-48 are objected to because of the following informalities:

Claim 34 (line 1), claim 35 (line 1), claim 36 (line 1), claim 46 (line 1), claim 47 (line 1), claim 48 (line 1) "a user" should be changed to --the user--.

Claim 45 (line 2), "a month" should be changed to --a month.--.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 33-38, 40-48, 50-52 are rejected under 35 U.S.C. 102(e) as being anticipated by Suzuki et al. (US 6,590,585).

Regarding claim 33, Suzuki et al. discloses calendar-based photo file browsing system (screen displayed by the AV content management and search program shown in figure 28,

Art Unit: 2612

column 22, lines 1-28) for browsing a plurality of files including at least one of a digital image or a digital video, each said digital file having an associated date, said system having an interface displayed on a display, said interface comprising:

(a) a calendar portion (calendar display window 261, figure 28, column 22, lines 1-28) having a range of displayed dates (calendar display window 261 shows a range of displayed in March, figure 28), each respective said date containing an indicator (thumbnail image shown in dates of 3/1/1999, 3/6/1999, 3/7-3/10/1999, figure 28) indicating the existence of one or more files associated with said respective said date;

(b) a browsing portion permitting a user to selectively increment said range by a selected one of a day and a month (a user can select month of the year 1999 by click on button “previous month” or “next month”, figure 28).

Regarding claims 34, 48, Suzuki et al. discloses where said browsing portion permits a user to selectively increment said range by a selected one of a day, a month, and a year (a user can select month of the year 1999 by click on button “previous month” or “next month”, figure 28).

Regarding claims 35, 46, Suzuki et al. discloses where said browsing portion permits a user to adjust the size of said range (the user can select any month of the year 1999, this indicates that the user can adjust the size of the range, figure 28).

Art Unit: 2612

Regarding claims 36, 47, Suzuki et al. discloses where said browsing portion permits a user to alternate said range between a week and a month (figure 28 shows that the user can browse image displayed in a week, for example, the user can browse image displayed in week of 3/1-3/6/1999 or 3/7-13/1999).

Regarding claim 37, Suzuki et al. discloses where said indicator is a thumbnail image (thumbnail images shown in dates of 3/1/1999, 3/6/1999, 3/7-3/10/1999, figure 28).

Regarding claims 38, 44, Suzuki et al. discloses where said thumbnail image is representative of a plurality of images, each associated with the respective indicator's date (thumbnail images shown in dates of 3/1/1999, 3/6/1999, 3/7-3/10/1999, figure 28).

Regarding claims 40, 50, Suzuki et al. discloses having plural said indicators (thumbnail images shown in dates of 3/1/1999, 3/6/1999, 3/7-3/10/1999, figure 28).

Regarding claims 41, 51, Suzuki et al. discloses where each of said plural indicators of a respective said date indicates a category of files (column 22, lines 10-20).

Regarding claims 42, 52, Suzuki et al. discloses where each of said plural indicators of a respective date indicates a time associated with said respective date relative to other said indicators associated with said respective date (figure 28, column 22, lines 1-25).

Art Unit: 2612

Regarding claim 43, Suzuki et al. discloses calendar-based photo file browsing system (screen displayed by the AV content management and search program shown in figure 28, column 22, lines 1-28) for browsing a plurality of files including at least one of a digital image or a digital video, each said digital file having an associated date, said system having an interface displayed on a display, said interface comprising:

(a) a calendar portion (calendar display window 261, figure 28, column 22, lines 1-28) having a range of displayed dates (calendar display window 261 shows a range of displayed in March, figure 28), each respective said date containing an indicator (thumbnail image shown in dates of 3/1/1999, 3/6/1999, 3/7-3/10/1999, figure 28) indicating the existence of one or more files associated with said respective said date;

(b) said indicator being a thumbnail image of a file associated with said respective said date (thumbnail images shown in dates of 3/1/1999, 3/6/1999, 3/7-3/10/1999, figure 28, column 22, lines 1-28).

Regarding claim 45, Suzuki et al. discloses a browsing portion permitting a user to selectively increment said range by a selected one of a day and a month (a user can select month of the year 1999 by click on button "previous month" or "next month", figure 28).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person

Art Unit: 2612

having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 39, 49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suzuki et al. (US 6,590,585) in view of Peairs et al. (US 6,085,205).

Regarding claims 39 and 49, Suzuki et al. fails to specifically disclose each respective displayed date has an associated displayed second indicator indicating the quantity of files associated with said respective displayed date. However, Peairs et al. teaches a calendar-based user interface, in which a monthly display page 500 shows a number of files for a respective displayed date, such as cell 504 for the date of August 19, 1996 shows 3 documents 506, 508 and 510, figure 5, column 4, lines 30-50). Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the device in Suzuki et al. by the teaching Peairs et al. in order to obtain a calendar-based user interface, which allows a user to recognize the number of files associated with a respective displayed date.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2612

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
